Regional Meetings: Recertification Elections

PERB will be presenting the latest information concerning the upcoming recertification elections. This will be followed by a question and answer session. In addition, PERB staff will be available afterwards for individual questions. This is not a debate on the recent changes in law but rather an informative update on how the upcoming recertification elections will work. These public meetings are open to all that have an interest. At locations where there are two meetings, the presentation will be the same but are being presented twice for additional opportunity for attendance.
