#### DECISION AND ORDER

On August 20, 1979, the Public Employment Relations Board (hereinafter the Board), granted AFSCME Council 61's request to withdraw AFSCME's bargaining representative determination petition in PERB Case No. 1352. IN THE MATTER OF: STATE OF IOWA, Public Employer/Respondent and AFSCME, IOWA PUBLIC EMPLOYEES COUNCIL 61, AFL-CIO,

CASE NOS. 1352 & 1425

Petitioner/Complainant

#### RULING ON MOTIONS

William C. Snyder, Hearing Officer. Upon Objections to Conduct affecting the outcome of an election filed pursuant to Rule 5.4(2) of the Rules and Regulations of the Public Employment Relations Board, Section 660, Iowa Administrative Code, and a complaint filed pursuant to Section 11 of the Public Employment Relations Act and Chapter 3 of the Rules and Regulations of the Board, a hearing was held in Des Moines, Iowa, on May 22, 1979. At the hearing, the State of Iowa appeared by Mr. Gene Vernon, Director of Employee Relations, and AFSCME, Iowa Public Employees Council 61, AFL-CIO appeared by Mr. John L. Ayers, Attorney At Law.

At hearing, the parties waived presentation of evidence and testimony and stipulated as follows:

#### STIPULATION BETWEEN AFSCME COUNCIL 61

#### AND STATE OF IOWA

Based upon an investigation initiated and conducted by the office of the Executive Director of the Public Employment Relations Board, the State of Iowa and AFSCME Council 61 stipulate to the following facts regarding the objections in PERB Case No. 1352:

1) That 69 of the mail ballots were unclaimed by eligible voters.

2) That seven mail ballots not returned by voters were not properly marked by the the post office so that date of receipt cannot be determined.

3) That 50 mail ballots were delivered by the post office after January 24, 1979.

Based upon these facts, the parties stipulate that 125 voters were effectively deprived of an opportunity to vote. Depriving these voters of an opportunity to vote did effect the results of the election, within the meaning of Rule 5.4(3) of the Rules and Regulations of the Public Employment Relations Board.

The above events were beyond the control of the State of Iowa, AFSCME Council 61 and the Public Employment Relations Board.

The parties stipulate that PERB should conduct a new election in November, 1979.

Based upon their stipulation, the parties jointly moved that:

1) The election conducted in January, 1979 be set aside.

2) A new election be conducted in November, 1979, and

3) The pleadings in Case No. 1352 be amended to conform to the proof.

AFSCME, Iowa Public Employees Council 61 further moved to withdraw the complaints filed in Case No. 1425 pursuant to Rule 3.6(20) of the Board's Rules and Regulations.

I have reviewed the stipulation as submitted by the parties. The public policy of the Public Employment Relations Act is to "promote harmonious and cooperative relationships between government and its employees." It is the opinion of the undersigned that this policy is best served when the election of any employee organization is not clouded by doubts such as those raised by the Objections to the January, 1979, election and the Prohibited Practice Complaint. The Stipulation indicates the ability of the parties to cooperate in resolving the sensitive issues raised by the Objections and the Complaint. Accordingly, I issue the following Order.

#### ORDER

IT IS HEREBY ORDERED that the motions by the parties are hereby granted. The election conducted in January, 1979, is hereby set aside and a new election shall be conducted in November, 1979. The Pleadings in Case No. 1352 are hereby amended to conform to the proof. The complaints in Case No. 1425 are hereby dismissed pursuant to Rule 3.6(20).

IN THE MATTER OF:

STATE OF IOWA, PUBLIC EMPLOYER

AND

STAFF EMPLOYEES COLLECTIVE ORGANIZATION, EMPLOYEE ORGANIZATION

AND

AMERICAN FEDERATION OF STATE, COUNTY AND MUNICIPAL EMPLOYEES, EMPLOYEE ORGANIZATION CASE NOS. 1135

#### DECISION AND ORDER

These cases were heard before the full Public Employment Relations Board on January 10, 1978, pursuant to petitions filed by the State of Iowa and Staff Employees Collective Organization. Case 1135, filed by Staff Employees Collective Organization, requests determination of an appropriate unit including all clerical employees employed under the Board of Regents merit system. Case 1143, filed by the State of Iowa, requests determination of a single unit of all clerical employees of the state, including the Board of Regents and all other departments of state government.

The State of Iowa (hereinafter the State) appeared at hearing by its director of employee relations, Gene Vernon. Staff Employees Collective Organization (hereinafter SECO) appeared by its counsel, J. Patrick White. Intervenor American Federation of State, County and Municipal Employees (hereinafter AFSCME) appeared by its counsel Raymond E. Conley. All parties were afforded full opportunity to present evidence at hearing and to file post-hearing briefs.

#### FINDINGS OF FACT

There are approximately 7,000 state employees at issue in this case, all of whom fall within the general category of clerical employees. In approximate terms, 3,000 of those employees work at Board of Regents institutions. The remaining 4,000 are scattered throughout all the remaining departments of state government.

The Regents' employees work pursuant to a separate merit system established for them. Consequently, the job classifications for Regents' clericals are not identical to those for their counterparts under the general state merit system, although there are obvious similarities. According to the director of the Regents' merit system, job classifications in the Regents' service must be approved by the State Merit Commission, and there has been an attempt to harmonize the two systems. The differences that do exist are, for the most part, an attempt to more directly meet the needs of the Regents' institutions, with the particular classifications tailored to the educational or institutional setting.

There are, therefore, some differences in the number of classifications and in the titles used. The pay rates for similar jobs are approximately equal, although the Regents' pay plan has more merit steps in each range and operates somewhat differently than the general state system. And while employees may transfer within their respective merit systems, a Regents' employee cannot transfer to another state department. Similarly, a clerical employee working under the state merit system cannot transfer to a similar position within the Regents' system.

Grievance procedures under the two merit systems are largely parallel with one exception: the final step under the Regents' system is final and binding grievance arbitration with mutual selection of a neutral arbitrator by the parties; the final step

-2-

under the state system is a hearing and determination by the full Merit Commission. Some other categories of employees under the state merit system are, however, governed by a grievance procedure ending in binding arbitration pursuant to a collective bargaining agreement.

In very general terms, Regents' clerical employees are located on the campuses of the three state universities, and employees under the state merit system are located in Des Moines. There are, however, a large number of non-Regents' clericals in Ames with the Department of Transportation, and in the capital complex there are clerical employees from both merit systems working in the same building.

Witnesses called on behalf of SECO testified that its major organizational efforts have been concentrated within the Regents' system and that it has found less interest in collective bargaining among the employees under the state merit system.

#### CONCLUSIONS OF LAW

All parties in this case are in apparent agreement on the general appropriateness of grouping clerical employees together for collective bargaining purposes. The unresolved issue is whether these employees should be placed in one or two bargaining units. The State requests determination of a single unit for all such employees, and AFSCME concurs in that position. SECO, on the other hand, seeks a separate unit encompassing only the clerical employees under the Regents' merit system.

Section 13 of the Act requires that, in determining an appropriate unit or units for collective bargaining purposes, the Board consider, in addition to any other relevant factors, the following:

> (T)he principles of efficient administration of government, the existence of a community of interest among public employees, the history and extent of public

employee organization, geographical location, and the recommendations of the parties involved.

In Des Moines Independent Community School District, PERB Case Nos. 21, 125 and 126 (1975), we defined the "principles of efficient administration of government" to require for any one employer the smallest number of bargaining units consistent with meaningful and effective representation of the employees involved. Since that time we have consistently held that similar types of employees performing similar duties are to be included in a single unit unless one of the remaining factors in Section 13 compels smaller bargaining units. Generally, however, the result has been the establishment of bargaining units based upon broad occupational groupings. Polk County, PERB Case Nos. 120, 227, 276 and 339 (1975); Woodbury County, PERB Case Nos. 46, 118 and 470 (1975); State of Iowa, PERB Case No. 930 (1977); State of Iowa, PERB Case No. 1071 (1977). Applying that standard to this case, a single unit of all clerical employees best meets this statutory criterion and should thus be found appropriate unless some other factor compels a different result.

A community of interest among public employees is generally found to exist where their similarities demonstrate that their interests and concerns regarding matters subject to collective bargaining are largely compatible. In other words, where employees are subject to similar benefits and conditions of employment, and have similar qualifications, training, skills, and general duties or functions, they are generally considered to have a community of interest for purposes of collective bargaining. Such a community of interest is usually determined upon occupational or job-function lines, and not by geographical proximity, although the latter may in some instances be a factor.

SECO argues that because Regents' employees are subject to

a merit system unique to themselves, their community of interest is separate and distinct from other state employees. We do not agree. It is true that there are differences between the two systems, but there are also great similarities. And the differences that do exist are not, in our judgment, sufficient to require the determination of separate bargaining units for the employees of each merit system, particularly in view of the substantial similarities in general job duties and functions, training, skills, and qualifications. It is, simply, difficult to find that these employees do not share a sufficient community of interest to be combined in a single unit.

That is not to say that a poll of the employees would not indicate a general desire on the part of Regents' clericals to be separate from other state employees. Likewise, however, it is likely that University of Iowa employees would prefer to remain separate from their counterparts in the other state universities and that, perhaps, clerical employees in the Thiversity of Iowa hospitals would prefer to remain separate from other clerical employees at the University of Iowa. But upon examination of those factors that determine the boundaries of a community of interest for collective bargaining purposes, and in light of our application of the "efficient administration of government" criterion, we believe that a single unit of all clerical and related employees best meets the requirement that employees grouped together for bargaining purposes share a community of interest.

The remaining statutory factors for our consideration do not appear to require a different result. There has been no history of bargaining for any of the employees under consideration here. Although SECO has apparently concentrated its organizational efforts within the Regents system, and has found less interest in organization outside those institutions, that alone is not, in

- 5-

our judgment, controlling. Geographical location can be considered at best a minor factor; either composition would result in a large geographic distribution of unit employees. And the recommendations of parties are disparate.

Two other factors deserve comment, however. First, SECO alleges that because AFSCME currently represents approximately 13,000 state employees, representation of these employees by a different organization might be desirable. Presumably, the determination of a separate unit for Regents' clerical employees would enhance the likelihood of SECO's attainment of representation rights for those employees. Although this may be true, we do not believe it is a proper consideration for us. Our role is to determine an appropriate bargaining unit for these employees, not to determine which employee organization should represent them -- that is for the employees to decide by secret ballot. We cannot deny that our determination of the appropriate unit structure may in some cases affect which organization has the best chance of ultimately gaining certification. But for that very reason we must be extremely cautious that our role remains one of determining appropriate units and not of imposing our judgment of the most appropriate bargaining agent on the employees. It is not our prerogative to make unit determinations on the basis of our choice of the best union to represent state employees.

Secondly, SECO argues that separate departmental units were found appropriate for blue collar employees and that those determinations are dispositive of the issue before us here. We do not agree. Separate blue collar units were found appropriate on the basis of stipulations entered into by all interested parties during those unit determinations. But they were stipulations, and in approving them we specifically stated that we were not precluding a later finding that a more inclusive blue collar

-6-

unit would not also be appropriate. Those units were, of course, consolidated and now comprise a larger unit based on a broad occupational grouping more consistent with our other unit determinations for state employees.

In summary, we believe that a proper balancing of the statutory factors requires a determination that a single unit for all clerical employees is appropriate for collective bargaining purposes, and that the differences between Regents' clerical employees and their counterparts in other state departments are not sufficient so as to compel a separate unit for Regents' clericals. The appropriate unit is, therefore:

> All clerical and related employees of the state of Iowa as set forth under "inclusions" in appendix A; but excluding those classifications set forth under "exclusions" in appendix A, all other persons excluded by Section 4 of the Act, and all other employees of the State of Iowa. 1/
